

Cancer (AK 35-USDA 347)

Explain to Participant	You're enrolled in the WIC program today because your nutritional status (how healthy you are "nutritionally") may affect how well you do with cancer treatment. In addition, many of the treatments for Cancer also affect your ability to eat. Individuals who have cancer have more health risks.	
Goal	The goal is to promote making good food choices of high nutritional quality and to control your cancer.	
Suggestions for Reducing Risk	<p>Follow the recommendations of your health care provider.</p> <p>See your doctor regularly.</p> <p>Refer to a Registered Dietitian (RD).</p> <p>Explain the nutrition education material suggested.</p> <p>Eat a variety of foods from all the food groups every day.</p> <p>Drink 8 glasses of water every day.</p>	
Nutrition Education Material Suggested	Time To Take Five: Eat 5 Fruits and Vegetables a Day
